

Volunteers Needed for Studies on DNA and Your Environment

Adults, 18 years of age and older, are invited to join the Environmental Polymorphisms Registry (EPR), a study to discover how the environment influences the development of disease. The study is being conducted by the National Institute of Environmental Health Sciences (NIEHS), part of the National Institutes of Health (NIH).

What's required?

- One visit to donate a blood sample
- Agree to update contact information every year
- Agree to be contacted for follow-up research studies
- Agree to complete a health and exposure survey

Participants will be compensated up to \$45.

For more information:

- Call 1-855-696-4347
- Email myniehs@nih.gov
- Visit our website at joinastudy.niehs.nih.gov
